

KsTU COMES TO THE RESCUE: GH¢100,000 SCHOLARSHIP AND ESSENTIAL ITEMS TO AID STUDENTS OF THE FLOOD-AFFECTED AREAS

In the wake of the devastating consequences of the Akosombo Dam spillage, Kumasi Technical University (KsTU) has emerged as a beacon of hope, extending a lifeline to the affected communities. The University has offered GH¢100,000 worth of scholarship for female students residing in areas ravaged by the spillage. The scholarship aims to support and encourage the pursuit of Science, Technology, Engineering and Mathematics (STEM) programmes at KsTU. [Read more](#)

KsTU WINS 2023 "WHAT DO YOU KNOW?" STATISTICAL KNOWLEDGE CONTEST

Kumasi Technical University (KsTU) has secured a resounding victory in the 2023 "What Do You Know?" Statistical Knowledge Contest (SKC). The contest organised by the Ghana Statistical Service in commemoration of the 2023 African Statistics Day celebrations saw Mr. Gerald Ohene Agyekum, a final year Health Statistics student of KsTU, winning the contest.

Competing against six formidable Technical Universities in the southern zone of Ghana including Takoradi Technical University, Accra Technical University, Cape Coast Technical University, Koforidua Technical University, Ho Technical University and Sunyani Technical University, KsTU emerged as the winner with an impressive 20 points. SEVEN FINAL-YEAR STUDENTS TRIUMPH IN POSTGRADUATE THESIS DEFENSE AT GRADUATE SCHOOL ORAL EXAMINATION

Kumasi Technical University (KsTU) held its annual Postgraduate Thesis Oral Examination at the JICA Conference Centre on 3rd November 2023. The remarkable event underscored the outstanding research and academic brilliance of seven final-year students pursuing their Masters degrees at KsTU.

In line with the rigorous academic standards of Kumasi Technical University, the Graduate School organised a viva-voce for these seven Master of Technology (MTech) students. The programme required the students to present their thesis which were meticulously examined by their dedicated supervisors and esteemed external examiners. [Read more](#)

FACULTY OF ENGINEERING AND TECHNOLOGY ORGANISES LECTURE SERIES ON APPOINTMENTS AND PROMOTIONS

The Faculty of Engineering and Technology at Kumasi Technical University (KsTU) recently organised a very enlightening Lecture Series at the JICA Centre. This event, which serves as a bridge between the Faculty and the other members of the University community, offered valuable insights into the University's policies, with a particular focus on the "Appointments and Promotions Policy."

The highly anticipated lecture was delivered by Ing. Prof. Julius Ahiekpor and Vice Dean of the Faculty of Engineering at KsTU. The event was graced with the presence of Engr. Prof. Robert Nagre, the Dean of the Faculty of Engineering who warmly welcomed the participants. Prof. Nagre emphasised the importance of the Lecture Series in fostering a strong bond between the University and the general members of the University community as well as creating awareness of the University's ongoing research activities.
